

mb

Tue Jun 1 11:00:35 2010

Currently at 3 M events

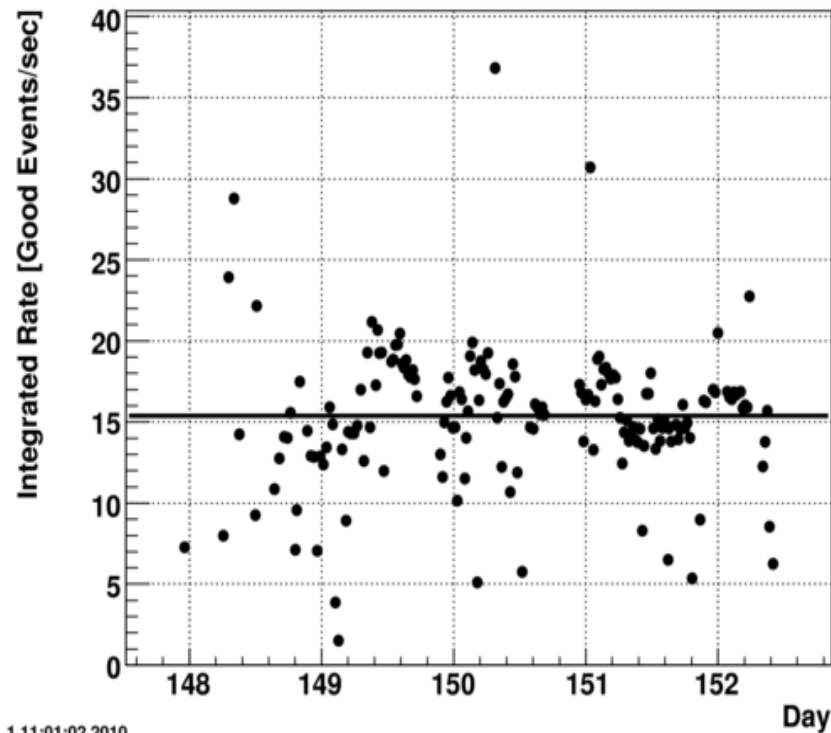

lum_perday.txt

Tue Jun 1 11:01:02 2010

15-18k events per fill

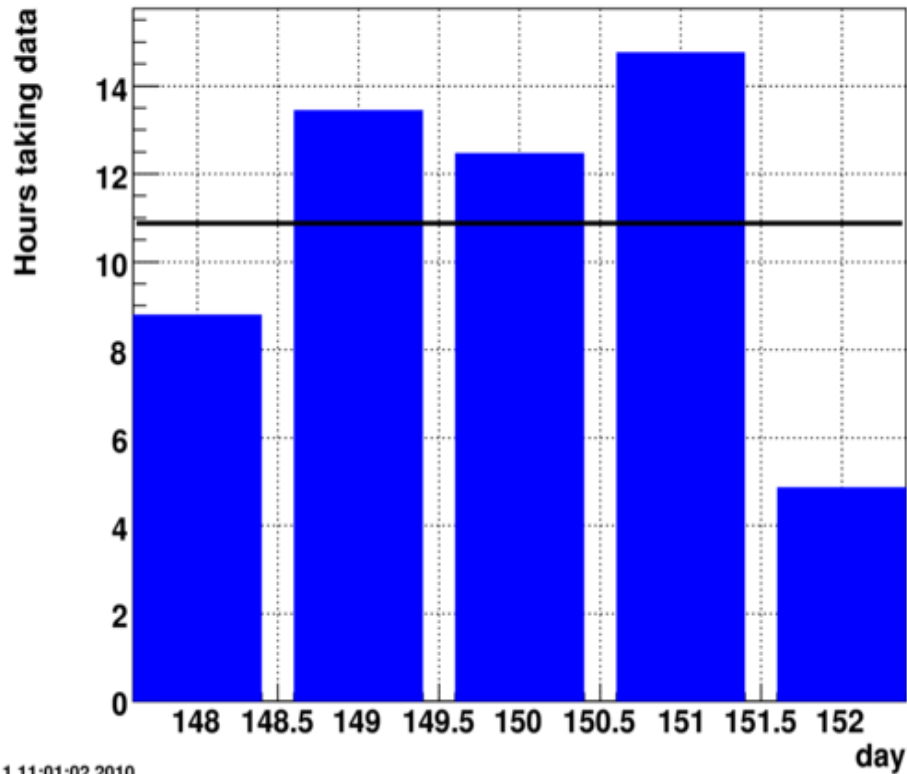

lum_rate_perday.txt

Tue Jun 1 11:01:02 2010

Typical rate 15 Hz

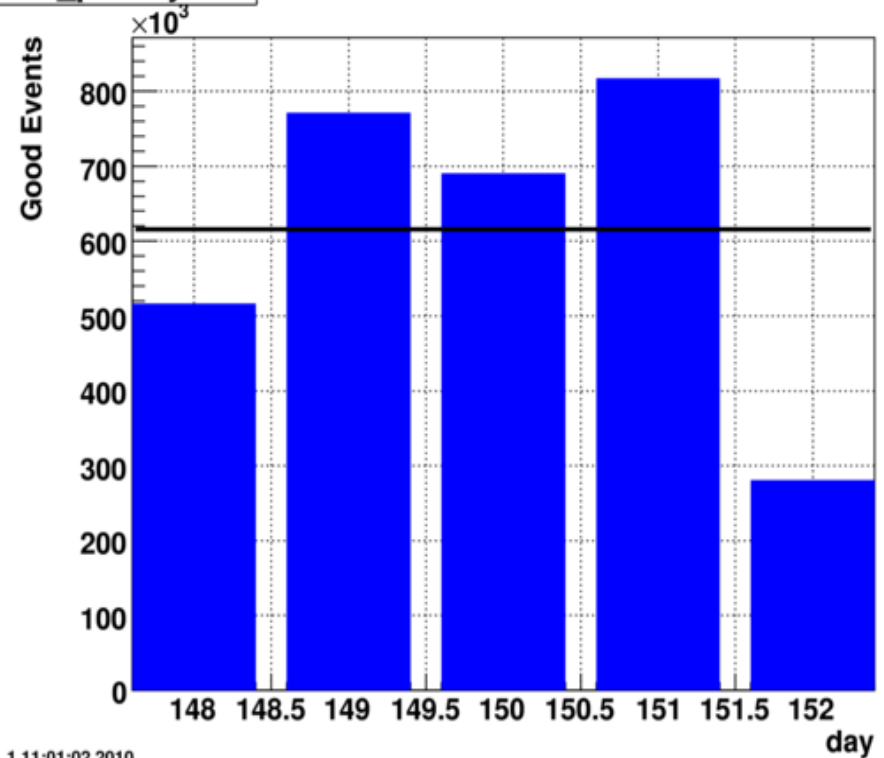

hours_perday.txt

Tue Jun 1 11:01:02 2010

Approximately 13 hours of data
taking per day

events_perday.txt

Tue Jun 1 11:01:02 2010

~ 600 k good events per day

Summary

- Great weekend
 - Smooth data taking
 - Very consistent machine performance
- Hope to reach 5 M events by the weekend
 - Due to uncertainty in when we will be there 11 GeV run was scheduled to continue until Monday morning June 7-th
