

RHIC Run 12  
16<sup>th</sup> Time Meeting  
Tuesday 1 May 2012

# ***WELCOME !***

- Safety first
- SP's slide
- Experiments and Machines, status

# Safety Training

- Ed Lessard

# SP's Slide

**- UxU Physics at RHIC is running steadily, with I/bunch~2.2e8, 16 days left**

**\* LIPA shut off 69kV BMMPS feed line last Saturday, ~0600-1500.**

**A store for Physics was put up at 0549 and extended to 1540 to allow for that scheduled LIPA work to take place.**

**\* Same scenario planned on next Wed, 9<sup>th</sup>. 12 to 16 hrs needed depending on what problems LIPA encounters - more below**

**- NSRL is running steadily. Next week. Is a NRO week.**

**- BLIP is running steadily.**

## **Program for the coming week :**

**- Stores to Physics.**

**- Next APEX is tomorrow, Wednesday, 9 hours, 0800-1900**

**- Next Maintenance : Wednesday 9 May. Activities will be scheduled to maximize RHIC running, accounting for LIPA.**

**→ NSRL is considering cancelling Wednesday's NRO running and adding Saturday 12th to its schedule instead.**

# Experiments and Machine, Status

**RHIC**

**STAR**

**PHENIX**

**RCF**

**Injectors**

**BLIP**

**APEX**

**Operation**

**Yun Luo**

**Alex Schmah**

**Xiaochun He**

**Michael Ernst**

**Kip Gardner**

**Len Mausner**

**Mei Bai**

**Peter Ingrassia**

# Next Time Meeting

**Tuesday 8 May**

**1:30**

**Snyder**

***MANY THANKS FOR YOUR PARTICIPATION  
AND FOR YOUR CONTRIBUTIONS***
